

Two red tail lights are all that I see  
When I remember the last time you drove away from me  
You drove away and you didn't come back  
Two red tail lights fade to black

You been here and you been gone  
Then here again and so on  
Sorrow and relief - I don't know which is worse  
But if you want to leave again you gotta come back first

**CHORUS**

Come back first  
Come back last  
Hey, you could just stay and save all that gas  
But I'm your love  
Then I'm your curse  
So if you want to leave again you gotta come back first

I keep looking at the kitchen door  
And three Cheerios on the floor  
The clock just stopped - no, there it goes  
When did a second get so slow?

All in all it's all a mess  
And I'm just trying to do my best  
You might feel sweet, you might feel hurt  
But if you want to leave again you gotta come back first

**CHORUS**

Come back first  
Come back last  
Hey, you could just stay and save all that gas  
But I'm your love  
Then I'm your curse  
So if you want to leave again you gotta come back first  
If you want to leave again you gotta come back first

Two red tail lights are all that I see  
When I remember the last time you drove away from me  
You drove away and you didn't come back  
Two red tail lights fade to black
