

## **The Edge of the World** (Buddy Mondlock)

All the words that fell landed hard  
And only time will tell how many leave a scar  
I'm floating over my life with you  
Baby what am I gonna do?

You're sorry in your way, so am I  
But that's something you won't say, you won't even try  
You're swimming further away from shore  
I can hardly see you anymore

### CHORUS

Don't swim over the edge of the world  
It's an awful long way down  
With nobody around  
To help you land  
Don't swim over the edge of the world  
We've still got our little boat  
It's leaky but it floats  
Take my hand

We've come a long long way you and I  
But come the break of day there's crimson in the sky  
We're floating over goodbye and hello  
Baby take a deep breath here we go

### CHORUS

Don't swim over the edge of the world  
It's an awful long way down  
With nobody around  
To help you land  
Don't swim over the edge of the world  
We've still got our little boat  
It's leaky but it floats  
Take my hand

We've come a long long way you and I  
But come the break of day there's crimson in the sky  
We're floating over goodbye and hello  
Baby take a deep breath here we go  
Baby take a deep breath here we go  
Baby take a deep breath here we go
