

Lost In Space (Buddy Mondlock)

A worried mind and a wrinkled brow
He just forgot to do things right somehow
A hangdog look on a weary face
He wants to go home but he got lost in space

A shuffle step and an old trick knee
A wandering eye that just don't help him see
An overcoat and an undershirt
A jumpstart heart that always seems to hurt

Danger! Danger!
Bridge washed out
Stranger, stranger can you help me out?
All the road signs got turned about
In the wind

A broken nose and a crooked smile
Two left feet that walked a crooked mile
An old tattoo on a weathered hand
A bone hard head that just don't understand

Danger! Danger!
Bridge washed out
Stranger, stranger can you help me out
All the road signs got turned about
In the wind

A feather dropped off an angel wing
A melody that no one learned to sing
A wild weed in a rocky place
He wants to go home but he got lost in space
