

## **I Count You My Friend** (Buddy Mondlock)

**CHORUS** I count you my friend  
Nothing complicated about it  
I count you my friend  
Will this change?  
I doubt it

I guess I knew you all along  
Even though it ain't been long since we met  
But something tells me I'm not wrong  
Friends like you I don't forget

And have you noticed how the light has changed  
A little brighter every day now it seems  
I tell you now that's nothing strange  
It looks that way when it's shining off dreams

**CHORUS** I count you my friend  
Nothing complicated about it  
I count you my friend  
Will this change?  
I doubt it

When the going gets a little rough  
And they're lining up to box our ears  
We won't even give 'em our best stuff  
We'll send 'em back in cry baby tears

And when the beauty of this world won't sleep  
And it tries to wake us up and make us cry  
We won't be afraid to laugh and weep  
We'll be safe in each other's eyes

**CHORUS** I count you my friend  
Nothing complicated about it  
I count you my friend  
Will this change?  
I doubt it

(REPEAT CHORUS)

Will this change?  
I doubt it
